## **From the Desk of Principal**

Education is not merely the acquisition of marks and certificates; it is the shaping of character, conscience and competence. At our institution, we are committed to providing quality education that nurtures not only intellectual growth but also strong moral values. We believe that true education is rooted in ethics, dedication, discipline, empathy and responsibility. Academic excellence must walk hand in hand with honesty, respect for others, compassion for the weak and commitment towards society. When students learn to think critically, act ethically and care deeply, they become responsible citizens and future leaders. My message to the esteemed stakeholders of Shri Surajkund SVM SUNAM administered by Vidya Bharti is to dedicate this year to a correct understanding of what education really means and let us all benefit from this understanding. At the end I would like to thank you all who have reposed faith in our institution and ideals it stands for and to have allowed themselves to be shaped especially at the present time when every body is facing the challenge of a rapidly transforming world.

I entreat the Almighty to shower his blessings in plenty upon the staff and students of the school in their efforts.

With warm blessings

Amit Dogra

## SMART ROOM & DIGITAL BOARD

In today's competitive world, children need the skill sets, which are beyond subject knowledge and require concentration assimilation and retention. In this regard the role of smart classes is quite important. At SSKS its importance is manifested with the installation of the smart rooms. Our Smart classes comprise the use of all interactive modules like videos and presentations which are appealing to students. In fact our smart classes are almost like watching movies and sometimes, animated visuals are used to teach a concept. This kind of visual is eye-catching and our young students easily relate with them. Watching highly engaging visuals and animations makes learning enjoyable for students while improving their overall academic performance in school.

## Co-curricular Activities

### Educational Visit

It allows students to have real world experience, which clearly illustrates and enhances the information taught in the curriculum. Industrial trips give a chance to experience hands on learning while being introduced to new environments.
